

CB Hand Chain Hoists

CB Hand Chain Hoists are built with premium-grade components for long life in the toughest industrial and heavy construction applications. CB manual chain hoists are small and light, yet extremely durable, with industry-leading quality.

Feature

- Capacity Range: 500kg - 50t
- Compact design for lightweight portability
- Exceptional durability thanks to all-steel construction featuring rugged gear case enclosure and handwheel cover.
- Abrasion resistant load chain is made from heat-treated alloy steel for high, uniform strength.

High Speed CB Hand Chain Hoists

High Speed CB Hand Chain Hoists greatly reduce operating time. A non-contact magnetic clutch speeds up lifting and lowering operations at no load time to 7 times faster than before.

Feature

- Capacity: 2.5t-50t
- World's first automatic speed change mechanism

Kito is proud to introduce a new high speed option for the M3CB which promises to save time and reduce operator fatigue during large capacity lifts.

CF Hand Chain Hoists

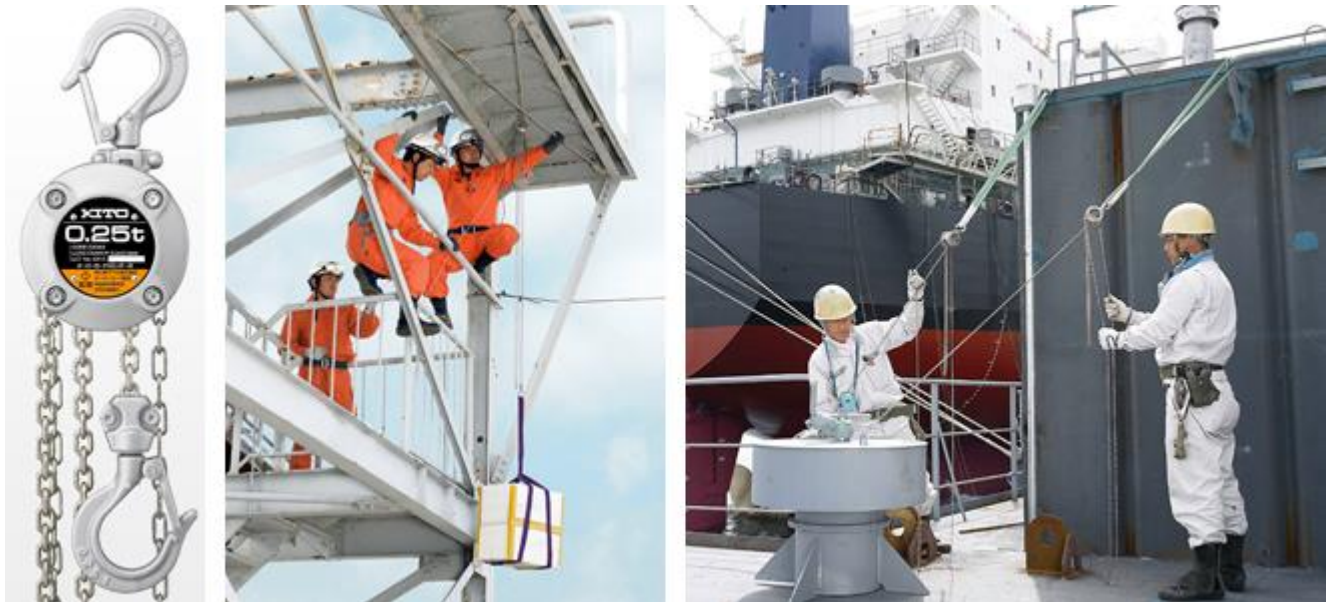

CF Hand Chain Hoists are built with quality components to provide years of reliable service. These hoists are the economical and practical choice for efficient, trouble-free service.

- Capacity Range: 1/2t - 3t
- Rugged die-cast aluminum body provides exceptional strength

CX Hand Chain Hoists

We made the CX-series hoists light and compact using simple, modern design principles. The line includes 250kg and 500kg models. The hoist body is ultra-compact, making it extremely portable and easy to operate.

Feature

- Capacity Range: 250kg, 500kg
- Overload Limiter is standard

LB Lever Chain Hoists

LB Lever Chain Hoists are built with premium grade components for long life in demanding industrial and heavy construction applications. LB lever hoists feature double-reduction gearing for reduced size and weight. These hoists can be used horizontally, vertically, inverted or at any other load angle and have the strength to get the job done.

Feature

- Capacity Range: 0.8t - 9t
- Compact design for lightweight portability
- Patented induction hardening process on load bearing parts increases strength and rigidity of the frame.
- Abrasion and corrosion resistant, nickel plated load chain made from heat-treated alloy steel for high, uniform strength.

LX Lever Chain Hoists

LX Lever Chain Hoists are suitable for work in tight quarters or elevated locations where fastening, fixing, or positioning of light loads is required. These hoists are ultra lightweight and compact yet extremely durable.

- Capacity Range: 1/4t, 1/2t
- Extremely low pulling force is required for operation.
