

Flair 600/1600 monocables

Gouging with the support of a monocable is a very efficient and handy way to operate. Both the power and the air are guided through one cable, which allows the gouger to work. The monocable is available for the Flair 600, Flair 1600 and Flair 2 (600A).

Detailed leaflets are available on request.

Product nr	Description	Length	Packing
06.02.80601	Monocable gouging torch Flair 600.	2,5 meter	1/5
06.02.81601	Monocable gouging torch Flair 1600.	2,5 meter	1/5
